ANNISTON, ALABAMA 36202

March 17, 2005

Mr. Brad Bunn
Program Executive Office, NSPS
1400 Key Blvd, Suite B-200
Arlington, VA 22209-5144

Dear Mr. Bunn:

As Mayor of the City of Anniston, I wanted to express my concern regarding my review of the NSPS and its impact on wage grade civilians at Anniston Army Depot. It is our privilege to share the name of such a wonderful facility and particularly the work force who have consistently offered themselves in whatever part of the world they are needed.

I understand a system is in place that identifies an associate who is not performing their duties and a way to correct the situation. Please review this process and I believe you will be convinced that the NSPS is not necessary and will only create a situation in which workers will be less productive and be in positions of conflict with one another.

Thank you for your consideration of this request.

Respectfully,

Hoyt W. Howell, Jr.
Mayor
