"For the deterioration of America"

*This program will make corporations
out of humans at the disposal of companies
through their management.*

*As a person works for a company 15-20-25
years & they become older both eyes & mobility
deteriorating over time. Companies will only opt for
younger people. Thus when you need medical services
the most for your health expenses. Companies will
rid themselves of the burden (commitment) for a more
youthful one. When with Retirement age moved to
68-70 you won't be able to retire either. (Another "Catch 22")*

*Then the UN could put the final Coup to
the American (once free) people.*

Sincerely,

Rich Spilke
