9901.341-342 - Performance Payouts Under NSPS, there will be pay pool managers and panels charged with overall responsibility for the ratings and distribution of the payouts in a given pool. So your supervisor could tell you all year long that you are doing a terrific job and can expect a meaningful increase. The pay pool manager might decide, however, that it makes more sense to give a bigger amount of the finite money in the pool to another employee of another part of the organization. You might get a smaller amount than expected or you might get a bonus instead of a raise.

Sincerely,

P-0150
