RE: National Security Personnel System (NSPS)

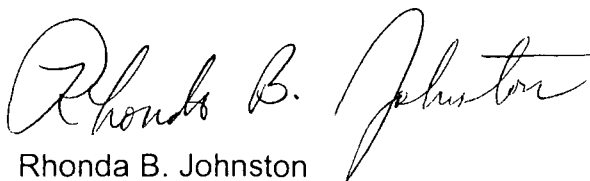

Dear Sir:

In regard to the proposed National Security Personnel System (NSPS) regulations that were formally published in the Federal Register on 14 February 2005, I am vehemently opposed to these proposed changes to the current civilian human resources system.

In my opinion, NSPS is detrimental to all Civil Service workers. As a civilian employee for several years, I am very happy with our current civilian human resources system (such as wage grade and step promotions).

I oppose the implementation of NSPS and I urge you to act to instruct the Secretary of Defense to halt any further development of NSPS.

Sincerely,

A handwritten signature in cursive script that reads "Rhonda B. Johnston". The signature is written in black ink and is positioned above the typed name and title.

Rhonda B. Johnston
GS-12, civilian employee
