9901. 405 406 Setting and communicating performance expectations

There are few details, Supervisors will communicate performance expectations prior to holding the employee accountable for them.

DoD says it wants the flexibility to change and modify expectations throughout the year, but claims that supervisors will inform and involve employees in those changes. It is hard to imagine managers, many of whom fail to have any performance discussions with their employees, now communicating constant changes in expectations.

Sincerely,

DID
